

URAI 2024

Wednesday, November 13, 2024 - Thursday, November 14, 2024

Scientific Program

Main Track

The main event of URAI 24 is the scientific conference on November 14th (Room D001). This year we have 2 keynotes, 2 sessions for technical talks and a poster session.

See the schedule for details.

All papers are linked in the schedule. **The full URAI 24 proceedings can be found here.**

NECTAR

This year, the new NECTAR track provides the opportunity to present existing work to the URAI community. We accept contributions which have been accepted at other AI venues for presentation during the poster session.

Tutorials

Free tutorials on Nov. 13th for Students and other interested participants. Please register to attend the tutorials.

Tutorial 1: Fine tuning LLMs with your own data.

Tutorial 2: Deep Reinforcement Learning
